FY03 figures are based on the results of 75 "mystery shopper" calls that took place over a two week period in April, 2003. The next "Mystery Shopper" assessment will take place in April of 2004. A "satisfactory" rating corresponds to the percentage of mystery shoppers who rated the overall service provided in response to their request for information as "good" or "very good."					
^b E.g. in-person requests. Most in-person requests involve a direct service (see "Explanation" below). Outcomes/results are measured by a follow-up mail survey. A "satisfactory" rating corresponds to the percentage of respondents rating the overall service provided in handling their request as "good" or "very good." The FY04 figures were compiled from a survey done in November 2003.

EXPLANATION:

The regional representation program of Montgomery County's five Regional Services Centers provides liaison between the County and its residents, community groups, businesses, regional Citizens' Advisory Boards, and other public agencies. The Centers serve as a direct link between the County government and its citizens – bringing the County's services closer to residents, businesses, and other local organizations. The Centers also help the County Executive to keep in touch with local issues, while making it easier for citizens, community groups, and business organizations to voice their concerns and influence legislation. Center staff provide liaison, mediation, technical assistance, and problem-solving skills to area organizations and individuals – helping to identify and assess regional problems and issues, facilitating the development of solutions, managing site selections for public facilities, and bringing community perspectives to major policy issues. The Centers communicate with local individuals and groups through monthly newsletters and a variety of other media.
